

Animal InFormation Grid

Complete the information grid about the animals that you have read about in the text ‘Working Together’.
Information about meerkats is completed as an example.

| Name of animal | Habitat | How they work together | Why they work together | Other information |
|----------------|------------------|--|--|--|
| Meerkat | African Savannah | They squeal and stare at threats to warn the others of danger. | To keep all the members of their community safe. | Meerkat communities are also known as ‘mobs’ or ‘gangs’. |
